

Thornbury Freight

Predictive load matching for regional trucking fleets.

Logistics - Seed Round Pitch

The Problem

Empty miles

Regional carriers run 28% of their miles empty because loads are matched by phone.

Slow quoting

Brokers take four hours on average to return a rate, so shippers post to three brokers at once.

Driver churn

Unpredictable routes drive 91% annual driver turnover at carriers under 100 trucks.

Business Model

Owner-Operator

\$49/truck/mo

Up to 5 trucks

Fleet

\$39/truck/mo

Up to 80 trucks

Enterprise

Custom

Unlimited trucks

Traction & Market

We booked \$1.4M in gross merchandise value across 62 carriers in our first eight months.

The US regional freight brokerage market is \$88B, and we address the \$4.2B spent on load matching.

Team

Priya Raghunathan

Co-founder & CEO

Ran regional operations for a 400-truck carrier; built its first load-matching desk.

Marcus Oyelaran

Co-founder & CTO

Optimisation engineer; previously shipped routing infrastructure at a freight marketplace.

Helena Vasquez

Head of Revenue

Sold TMS software to mid-market carriers for six years before joining.
